

Sexton's Music & Rockin' Repair LLC — Service Menu (Draft w/ Descriptions)

Notes: This draft converts your Square service list into customer-facing descriptions and proposes small, low-shock price tweaks. Parts are billed separately at cost unless explicitly stated. Discounts apply to labor only (not parts).

Pro Level Service (PLS) — what the upgrade means

- Deeper cleaning and protection (contact points, hardware, basic corrosion prevention where appropriate).
- Extra measurement + documentation (before/after notes; relief/action targets; parts used).
- Extended play-test and final QC (noise check, tuning stability check, intonation verification).
- Cleaner cable management / routing / securement for pickup installs.

Price update (Jan 2026)

Modest inflation adjustments have been applied across most services (no huge jumps). Setup pricing is already at the new “lower barrier” rates.

- Strap Button Replacement: \$10 → \$15
- Neck Plate Replacement: \$5 → \$10
- Drill Mounting Holes: \$10 → \$15
- Truss Rod Cover: drill & fill: \$20 → \$25
- Additional nut slot filing (beyond the first): \$6 → \$10
- (If you'd rather keep any specific micro-service lower, we can.)

Setups & Adjustments

Service	Price	What's included (customer-facing)
Full Setup (6/7-string Electric or Acoustic)	\$65	Relief, action, intonation, pickup height (electric), clean & lube contact points, play-test.
Full Setup (Acoustic)	\$85	Relief, action, intonation check (if adjustable), clean & lube contact points, play-test.

Full Setup (Floyd Rose)	\$100	Includes balancing, claw/spring adjustment, fine-tune stabilization, stretch-in and final lock-down.
Full Setup (4-string Bass)	\$65	Relief, action, intonation, pickup height, play-test.
Full Setup (5/6-string Bass)	\$75	Relief, action, intonation, pickup height, play-test.
Full Setup (Mandolin/Banjo/Violin/Fiddle/Uke)	\$65	Relief/action where applicable, bridge position/intonation check, play-test.
Setup w/ Intonation Set (Setup-only add-on)	\$85	For instruments needing intonation set and baseline setup; use when Full Setup isn't selected.
Adjust Action OR Intonation	\$45	Single adjustment. Includes quick play-test.
Adjust Action AND Intonation	\$70	Both adjustments in one visit. Includes quick play-test.
Adjust Truss Rod	\$35	Relief adjustment only (no full setup).
Shim Neck (standard)	\$20	Add/adjust shim to improve action/bridge geometry (setup not included).
Shim Side of Neck Pocket	\$20	Side shim to correct alignment (setup not included).
Blocking Tremolo (one side)	\$75	Stabilize trem for dive-only/blocked feel (includes basic setup check).
Blocking Tremolo (second side add-on)	\$30	Additional blocking work if needed for full hardtail feel.
Lower Nut Slots	\$30	Lower existing nut slot

heights (not a new nut).

Strings

Service	Price	What's included (customer-facing)
Restring & Tune (Regular)	\$25	Customer-supplied strings or add strings at cost. Tune and stretch-in.
Restring & Tune (Extra)	\$35	For Floyd/locking/12-string/complex wraps. Tune and stretch-in.
Restring + Intonation Check/Set (6-string electric/acoustic or 4-string bass)	\$45	Restring, tune, and set/check intonation if needed.
Restring + Intonation Check/Set (5/6-string bass)	\$50	Restring, tune, and set/check intonation if needed.
Restring + Intonation Check/Set (12-string)	\$55	Restring, tune, and set/check intonation if needed.

Nuts & Saddles

Service	Price	What's included (customer-facing)
Fit & Adjust Precut Nut	\$40	Fit width/height, slot touch-ups as needed (material not included).
Filing Nut Slot (First Slot)	\$15	First nut slot filing/height correction.
Filing Additional Nut Slots	\$3/slot	Each additional slot after the first.

Difficult Removal of Nut (add-on)	\$15	For stubborn/over-glued nuts requiring extra time.
Acoustic/Electric Bone Nut - Fabrication & Installation (PLS available)	\$80-\$130	Hand-fit bone nut. Pro option includes extra polish, full measurement log, and final setup/QC.
Fender-Style Bone Nut	\$80	Bone nut build for Fender-style platforms (setup not included).
Mandolin Bone Nut	\$100	Hand-fit bone nut (setup not included).
Banjo Bone Nut (PLS available)	\$90-\$140	Hand-fit nut. Pro option includes setup/QC.
12-String Bone Nut - Fabrication & Installation (PLS available)	\$160-\$235	Complex nut fabrication for 12-string. Pro option includes full setup/QC.
Saddle (Bone) - Hand Crafted	\$60	Hand-shaped bone saddle (material and fit included).
Saddle Installation - Strat Style	\$90	Install/set saddles and dial in action/intonation basics.
Saddle Installation - Gibson Style	\$100	Install/set bridge/saddle and dial in basics.
Saddle 12-String Bone Upgrade (add-on)	\$20	Upgrade to bone saddle where applicable (labor add-on; parts extra).
Lower Nutshelf on Floyd Rose Nut	\$45	Lower shelf height for proper action at nut (setup check included).

Fretwork

Service	Price	What's included (customer-facing)
---------	-------	-----------------------------------

Fret End File Only	\$60	Deburr/sharpened fret ends; comfort bevel and polish edges.
Seat & Seal Loose Frets (full board, rosewood/ebony)	\$75	Reseat and secure loose frets (spot work; leveling not included).
Reseat up to 5 Frets	\$30	Reseat up to five frets (minor reseat only).
Spot Level up to 3 Frets (Setup Included)	\$175	Spot level/crown/polish up to three frets + full setup.
Fret Dress w/ Setup	\$150	Level, crown, polish + full setup.
Hand Fret Level & Recrown (Includes Full Setup)	\$225	Hand-leveled, crowned, polished frets with full setup and QC.
Partial Refret (1-7 frets)	\$100-\$200	Replace selected frets. Pricing by count: 1=\$100, 2=\$115, 3=\$130, 4=\$145, 5=\$160, 6=\$175, 7=\$200.
Full Refret (Unbound Rosewood/Ebony)	\$400	Complete refret; leveling/crown/polish included (setup typically recommended).
Full Refret (Unbound Maple)	\$400	Complete refret on maple board.
Full Refret (Bound Rosewood/Ebony)	\$525	Bound board refret (includes binding-nib work as needed).
Full Refret (Bound Maple)	\$525	Bound maple refret.
Instrument w/ Binding (add-on)	\$40	Additional labor for binding-related work where applicable.
Stainless Steel Fret Upcharge	\$100	Added labor for stainless frets.

Refinish Fingerboard (w/ Re-fret) - Gloss	\$150	Fingerboard refinish as part of refret.
Refinish Fingerboard (w/ Re-fret) - Matte	\$100	Fingerboard refinish as part of refret.
Masking Fingerboard (prep add-on)	\$10	Masking/protection for board during work.

Electronics & Wiring

Service	Price	What's included (customer-facing)
Clean Electronics	\$25	DeoxIT-style cleaning of pots/switches/jacks when applicable.
Replace Pickup (single)	\$50	Install 1 pickup and test.
Replace Pickups (2)	\$75	Install 2 pickups and test.
Replace Pickups (3)	\$100	Install 3 pickups and test.
Replace Potentiometer (single)	\$50	Replace 1 pot, solder, and test.
Replace Potentiometers (2)	\$75	Replace 2 pots and test.
Replace Potentiometers (3)	\$90	Replace 3 pots and test.
Replace Potentiometers (4)	\$100	Replace 4 pots and test.
Replace Potentiometer - Special	\$60	Specialty/stacked/mini/PCB-adapted pot labor.
Replace Switch	\$60	Replace selector/mini toggle as applicable and test.
Tap Switch Install	\$60	Add/install tap switch as requested; wiring and test.
Coil Split Wiring Upgrade (options)	Varies	Push/pull \$25, mini-toggle \$30, dual push/pulls \$45, prewired harness install-only

		\$35 (parts not included).
Total Rewire	\$200	Full guitar rewire (standard solid-body). Parts extra.
Total Rewire (Hollow Body)	\$250	Full rewire for hollow/semi-hollow platforms. Parts extra.
Shield Guitar Cavity (Copper EMI Shielding)	\$125	Copper foil shielding with proper continuity/grounding.
Shield Guitar Cavity (Conductive Paint)	\$175	Conductive shielding paint + continuity checks.

Hardware Installs & Mod Work

Service	Price	What's included (customer-facing)
Strap Button Replacement	\$10	Replace/install strap button(s).
Dowel & Drill Strap Button Hole	\$25	Repair stripped strap button hole with dowel and re-drill.
Drill Mounting Holes	\$10	Accurate pilot holes for hardware install (per location as needed).
Truss Rod Cover Drill & Fill	\$20	Fill old holes and re-drill for proper TRC alignment.
Tuner Button & Washer Replacement	\$20	Replace tuner buttons/washers (parts extra).
Tuner Machine Heads Install (No Mods)	\$30	Direct-fit tuner install.
Tuner Hole Resize w/ Installation	\$45	Ream/resize holes and install tuners.
Tuning Machine Head Install (with Hole Enlargement)	\$65	Enlarge/convert holes + install.

Control Knob Install (Customer supplied)	Varies	1-2 knobs \$10, 3 knobs \$15, 4 knobs \$20.
Potentiometer Hole Enlargement	\$15	Enlarge control hole for proper pot fit.
Pickup Ring Install (Customer supplied)	Varies	1 ring \$25, 2 rings \$45, w/ hole fill & redrill: 1 ring \$45, 2 rings \$65.
Pickguard Install (Pre-cut)	\$35	Install pre-cut guard (minor fit/align).
Pickguard Mounting (LP style, no screws)	\$20	Mount without standard screws where applicable.
Pickguard Mounting/Cutting/Shaping Required	\$75	Custom fit, trim, and mounting.
PLS Pickguard Install + Pickup Handling + Full Setup	\$85	Pickguard/pickup work plus full setup and QC.
Surface-Mount Bridge Replacement	\$30	Replace surface-mount bridge hardware (direct fit).
Drop-In Tune-O-Matic or Hardtail Bridge	\$20	Drop-in replacement on existing posts/studs.
Tune-O-Matic Bridge Install	\$75	Install/fit and set up basics.
Tele Bridge Install	\$215	Install Tele bridge (routing/drilling as needed; includes basic setup check).
Mount Tele Bridge (existing holes)	\$30	Mount/install on existing pattern (no major mods).
Tremolo Bridge Install	\$100	Install trem bridge hardware; basic setup check.
Mount New Tremolo (existing route)	\$30	Swap trem on existing route/pattern.
Bigsby Bridge Install	\$75	Install Bigsby (where compatible) and stabilize.

Bigsby Install on Tele	\$175	Tele-specific Bigsby install (more involved).
Bass Bridge Install (PLS available)	\$85-\$135	Install bass bridge; Pro option includes full setup/QC.
Mount Bass Bridge (existing holes)	\$20	Mount bridge on existing pattern.
Mounting Neck (No Drilling)	\$65	Neck install using existing holes; alignment check.
Mount Neck with Drill Holes (Setup Extra)	\$100	Neck install with drilling/alignment; setup not included unless selected.
Neck Plate Replacement	\$5	Replace neck plate (labor only).
Right-Hand to Left-Hand Conversion (Acoustic)	\$100	Basic conversion work where feasible (scope dependent).
Neck Speed Sanding / Satin Finish Conversion	\$80	Remove gloss/slow feel and convert to fast satin.
Relic – Finish Only	\$100	Cosmetic relic work on finish only (no structural mods).
Noninvasive Belly Bulge Removal	\$100	Stabilize/press minor bulge where appropriate (results vary).
Remove Stickers	\$25	Safe adhesive removal (finish-dependent).

Acoustic Pickup Systems

Service	Price	What's included (customer-facing)
Acoustic Pickup Installation (PLS available)	\$90-\$140	Install common acoustic pickup system. Pro option includes extra cleanup, secure wire routing, and QC.

Acoustic Under-Saddle Pickup Installation (PLS available)	\$115-\$165	Under-saddle element install and fit. Pro option includes setup/QC and deeper optimization.
Acoustic End Pin Jack Installation	\$50	Install endpin jack (ream/drill as required).
Acoustic Soundboard Transducer Installation (PLS available)	\$100-\$150	Install soundboard transducer. Pro option includes optimized placement, cleanup, and QC.
Ribbon Transducer Install	\$90	Install ribbon-style transducer pickup system.
Acoustic Dual-Source Pickup Installation (PLS available)	\$180-\$230	Install dual-source system (e.g., UST + mic/transducer). Pro option includes extra tuning/QC.
Pro Level Service – Onboard Acoustic Pickup System	\$160-\$210	PLS package option for onboard preamp systems (Grade 2 available).

Amp Services

Service	Price	What's included (customer-facing)
Amplifier Bench Fee (Diagnostic)	\$35	Initial evaluation/diagnosis. Applied toward labor if repair proceeds.
Amplifier Bench Fee (First Hour)	\$85	Deeper troubleshooting/diagnosis time block when required.
Amplifier Bench Hourly (15-min increments)	\$15 / 15 min	Billable bench time after initial blocks.
Tube Amp Bias (Variable Bias)	\$75	Bias check/adjust (amp must have adjustment).

Tube Amp Bias (Fixed Bias)	\$100	Bias service for fixed-bias circuits requiring more work.
Amp Maintenance	\$150	General maintenance service (cleaning, inspection, basic tests).
PLS - 10-Year Amp Maintenance	\$250	Deep maintenance package (scope varies by amp condition/model).
PLS - 20-Year Amp Maintenance	\$300	Most comprehensive maintenance package.

Small Electronics Services (non-phone / non-computer)

We service common small electronics such as game consoles, sound bars, pedals/pedalboards, power supplies, small audio gear, and accessories. We do not service phones, tablets, or computers at this time.

Pricing (starting points; final quote depends on diagnosis):

- Small Electronics Bench / Diagnostic Fee: \$25 (applies toward labor if you proceed; if not, it's the diagnostic fee).
- Standard labor: \$15 per 15 minutes (\$60/hr) after diagnosis.
- Board-level / micro-solder work: quoted after inspection (often higher due to risk/time).
- Parts are always additional (no parts discounts).

Common small-electronics services (examples):

- Power / DC jack repair or replacement
- Jack, switch, and connector replacement (input/output, headphone, IEC, etc.)
- Solder joint repair / reflow (intermittent power, crackle, dropouts)
- Fuse testing and replacement (where applicable)
- Cleaning: pots/switches/contacts, basic corrosion removal
- Cable repair (instrument/audio cables, adapters) — if repairable
- Audio troubleshooting (no sound, hum, intermittent) — quoted after diagnosis
- Console/sound bar “no power / no audio” diagnostics — quoted after diagnosis

Shop Policies & Fees

Service	Price	What's included (customer-facing)
---------	-------	-----------------------------------

General Bench Fee (Non-Amp Services)	\$25	Baseline evaluation/bench time. Applied toward labor if work proceeds.
Emergency / Rush Bench Fee	\$100	Expedite surcharge (subject to availability).
No-Show Fee (Scheduled Pickup/Drop-Off)	\$20	Charged if scheduled window is missed without notice.
Mobile Bench Fee	\$35	Mobile/house-call bench fee (does not include travel fee if applicable).
Miscellaneous	Variable	For oddball jobs or when scope can't be priced upfront.
Improper Part Fit (Customer Supplied)	Variable	Extra labor when customer-supplied parts require modification or are incompatible.
Extremely Dirty / Rusty / Frozen Hardware	\$40	Extra labor charge for heavy cleanup or seized hardware.
Extract Broken Plug	\$35	Remove broken plug from jack/amp/input safely.
Pro Level Service Drop-Off	\$15	PLS logistics add-on where applicable.

Build / Assembly

Service	Price	What's included (customer-facing)
DIY Guitar Kit Assembly (Regular)	\$135	Basic assembly labor (scope depends on kit).
DIY Guitar Kit Assembly (Pro Level Grade 1)	\$260	Assembly + extra fit/finish work and QC.
DIY Guitar Kit Assembly (Pro Level Grade 2)	\$385	Most comprehensive kit build option with extended QC and

polish.

Hand Rubbed Finish (Gun Stock)	\$65	Hand-rubbed finish work on appropriate parts/surfaces (scope dependent).
--------------------------------	------	--

Bench Fees (how they work)

Amplifiers: \$35 bench charge on all amp services. If you proceed with the repair, it applies toward labor; if not, it's the diagnostic fee.

Other instruments/services: \$25 bench charge. Same rule—applies toward labor if you proceed.

- Pickup/Delivery (optional): \$15 each way (\$30 round trip) for local service. For longer-distance pickup/delivery outside the local area, we'll quote based on driving distance. Promos/discounts apply to labor and/or pickup/delivery only—never to parts. (standard local area). Extended-distance pricing is quoted.

Warranty note (placeholder)

Add your warranty language here (example: workmanship warranty for X days; parts per manufacturer; abuse/impact/temperature damage excluded).
